RF 60 TROUSERS

The RF 60 Trousers are lightweight and comfortable insulated trousers with low pack volume and minimal weight. They can be worn as reinforcement under shell trousers or as a top layer over other outerwear. The elastic waistband opens on both sides, and the full-length side zips allow for ventilation and quick dressing—even with shoes on. The fabric absorbs minimal moisture and therefore dries exceptionally quickly.

FUNCTIONS

- Very low moisture retention
- Quick-drying
- Elasticated waist
- Split waist
- Full length zip on the outside of both legs for quick removal and putting on
- UV/ VIS/ IRR
