MT UAC SHIRT

The MT UAC shirt is made from stretchy material and is ideal for slightly colder and windier conditions. It is low cut so it be used with a lightweight ballistic vest. The softshell material on the arms and shoulders is lined with fleece for added comfort and warmth. The fabric on the body is made of a moisture-wicking and quick-drying material for improved comfort whilst wearing ballistic protection. The upper sleeves are fitted with zipped pockets and the cuffs can be easily adjusted with Velcro tabs.

FUNCTIONS

- Stretch material with excellent moisture-wicking and quick-drying properties
