

CAM-NET PERSONAL

A personal camouflage net with thermal protection properties designed to fit the individual operator's equipment. The net has perforated edging so that several net can be linked if a larger camp or operational space needs to be built. This is easily done with a strong plastic wire. This net is also double-sided, which means greater flexibility and more versatility. The front side is 3-dimensional and provides good camouflage in forest environments, while the rear is 2-dimensional, which works better in mountain terrain, archipelagos and along coastal stretches.

FUNCTIONS

- Reversible
- 3D & 2D
- UV/VIS/IRR/TIR
- Thermal protection
- Dimensions 1.6 m x 3.0 m

FACTS

Article no.	203080500
Sizes	1,6 m x 3,0 m
Material	100% Polyester
Other	Weight : 1400 g
