CPA ARCTIC JACKET

The CPA Arctic Jacket is the result of over 10 years of development in collaboration with end users. The jacket is designed as a liner jacket and can therefore be used effectively in temperatures ranging from +5 to -50 degrees Celsius by adjusting the insulation layers. The liner system has the advantage of creating an air pocket between the membrane and the outer fabric, which helps maintain the membrane's breathability even in extremely low temperatures.

FUNCTIONS

- UV/VIS/IRR
- Wind- and waterproof with taped seams and breathable function
- Adjustable hood
- Steel wire in the hood's brim for adjustment around the face in wind and rain
- Detachable fur trim around the hood opening, attached with Velcro
- Heavy-duty 2-way front zipper, concealed by a storm flap
- Compass pocket with Velcro closure on the storm flap
- Velcro on the compass pocket for degree marking
- Spacious Napoleon pockets with zipper closure inside the storm flaps and an internal phone pocket. The pockets are hidden under the storm flap for access without opening the jacket
- Hip pockets with gusset and smaller inner pocket, zipper closure, and Velcro-secured pocket flaps
- Detachable battery pack holder inside the Napoleon pocket
- Sleeve pockets with gusset, Velcro-secured pocket flaps, and internal loop for securing items
- Velcro on sleeve pockets for markings
- Pre-shaped sleeves
- Reinforced elbows with padded protection against cold contact and hard surfaces
- Ventilation openings with waterproof zippers under the arms
- Velcro adjustment at the sleeve cuffs
- Mesh pocket on the inside back, ideal for storing overpants
- Width adjustment at the bottom of the jacket with elastic drawstrings hidden in the front pockets
- Drainage openings at the bottom hem and sleeve cuffs
- Internal crotch strap at the bottom hem
- Wind- and waterproof with taped seams and breathable function
